FAST-RISING ROCK N' ROLLERS LITTLE TRIGGERS ANNOUNCE DEBUT ALBUM

Following a stellar start to their career with their singles blasting onto Spotify Rock playlists, rave coverage from Planet Rock/Classic Rock Magazine/BBC Radio, and explosive live shows in the UK, France and China, Liverpool rock n' rollers Little Triggers will release their debut LP *Loaded Gun* on 24th May. Produced by Bring Me The Horizon engineer Al Groves, the 10-track album preaches the gospel of classic rock n' roll with a masterclass in huge guitar riffs, howling vocals and a punkish, livewire energy powering the melodic and anthemic songs.

Listen to *Loaded Gun* [on Soundcloud here now](#).

Little Triggers are a powerhouse rock band led by the dynamic vocals and iconic stage presence of Tom Hamilton. Like all the best rock n' roll gangs, the four-piece have a shared vision of restoring the rawness of guitar music and festival-ready choruses to the top of the tree and come armed with the looks, charm and ear for a hook to do it.

Rock media have been quick to spot their huge potential, with radio tastemakers supporting the band's February single *So Fine* and Classic Rock Magazine featuring them as a Track Of The Week. The supercharged song also received the Spotify seal of approval and rocketed to thousands of streams with a prominent placement on their *All New Rock* official playlist.

With an Iggy Pop support slot last year as well as a growing fanbase from sold-out shows in the past 18 months, 2019 will convert more music fans hungry for authentic thrills to the Little Triggers musical cause.

Find Little Triggers at facebook.com/littletriggersuk, instagram.com/littletriggers and twitter.com/littletriggers now.
